To Our Patrons

THIS is strictly a **WHOLESALE** list, and intended only for those engaged in buying and selling nursery products. We will appreciate being notified in case it gets in the hands of anyone not entitled to it.

PRICES are based upon present market conditions, and are subject to change at any time.

RATES for quantity are as follows:

Deciduous Stock (put up in bundles of 10):

Schedule applies for each variety and grade.

1 to 4 at 10 rate plus 20%

5 to 9 at 10 rate plus 10%

10 to 40 at 10 rate

50 or more at 100 rate

Evergreens and other B&B items:

Schedule applies for each variety and grade.

1 to 4 at 10 rate plus 10%

5 to 24 at 10 rate

25 or more at 100 rate

TERMS. 60 days net on all nursery stock. Nursery supplies 30 days net. Interest at 6% will be charged on over-due accounts.

GRADE STANDARDS. Those adopted by the American Association of Nurserymen.

PACKING. All boxing and baling charged at cost.

GUARANTEE OF GENUINENESS. We are ready at any time to replace free of charge, nursery stock that is proven to be untrue to name, or to refund the original amount paid, but we shall in no case be liable for any sum greater than the original purchase price of such stock.

CLAIMS OR COMPLAINTS. We very much appreciate having reports on shipments as soon as they are received. If stock is unsatisfactory, kindly advise us at once, and we will do all in our power to make any necessary adjustment. Unless otherwise specified, our sales are made F.O.B. Portland, and although we use all possible precaution in making shipments, our responsibility ceases upon delivery in good order to the carrier company.

FILLING OF ORDERS. Our central location and the fact that we receive stock from a number of local nurseries enables us to fill orders quite promptly.

LOCATION

Our office, warehouse and salesyard are located at 5050 S. E. Stark Street. If you have no transportation, phone us, or, if driving, come straight out Stark Street to 50th.

Prices listed apply only if 5 or more of a variety and grade are ordered.

The following is a descriptive list of new fruit varieties offered in this catalog for the first time this season.

APPLE

Beacon — New, hardy variety, medium size, ripening with or shortly after Gravenstein. Skin dark red, striped. Flesh moderately firm, juicy, moderately tart to mildly sweet. Rated good for pie and sauce.

Galer — Introduced in 1950, medium size, appears intermediate between Red Delicious and Spitzenburg in shape. Skin is thin, tough and smooth, light yellow, washed and striped with red. A good keeper in common storage, holding well until January or February. Good home variety for cooking purposes.

Melrose — A cross of Jonathan and Delicious, fruit is medium to large, somewhat like Jonathan in shape. Harvest season 7 to 14 days later than Jonathan. Skin is thick, tough, bright red washed and striped color. Flesh firm crisp. Exceptional storage qualities, keeping until May under proper cold storage conditions. Rated good dessert and processing.

Melba — Medium size, uniform shape, skin yellow, crimson striped. Flesh mildly subacid to tart, firm, crisp, juicy. Fruit ripens 10 to 15 days after Yellow Transp. Rated good for processing and good for pies.

APPLE — Continued

Red Melba — Similar to Melba but ripens a few days later, about August 15, and more red in color. Fruit medium to large, thin skin, striped crimson over waxy yellow undercolor. Rated fair to good for processing and for pies.

Red Transparent (Close) — Originated by U. S. Dept. of Agriculture, fruit is attractive, early, dull red, for home and commercial use. Usually 2½" or more in diameter, ripens slightly ahead of Yellow Transparent. Recommended for home and local market use.

Red Wealthy — A red sport of Wealthy, ripens first two weeks of September. Fruit medium to large and uniform in shape. Skin deep vivid red, thin, smooth and glossy. Flesh firm, crisp, subacid to tart. Rated very good for processing, and good as a pie apple.

Ruby — A new variety, cross of Ballia Beauty and Starking. Fruit is medium to large, uniform, smooth and quite firm. Skin moderately thick, washed and blushed deep red. Flesh firm, crisp, mildly subacid. Ready for harvest about Nov. 5-10. Keeps well in storage into April and May.

Spartan — A cross of McIntosh and Newtown. Fruit is above medium size, McIntosh in shape but more symmetrical and uniform. Skin is thin, with a solid, dark-red blush. Flesh is firm, crisp, juicy, slightly sweeter than McIntosh. Matures about two weeks after McIntosh. Grown under normal orchard conditions will store until January.

CHERRY

Sam — Black fruit which is as large as Bing and of good quality. Pollinates with Bing, Lambert and Van. Ripens 10 days earlier than Bing. Resists cracking 3½ weeks.

PEACH (For comparison purposes Elberta Peach generally ripens about September first.)

Dixie Gem — Ripens 4 weeks earlier than Elberta. Fruit medium size, yellow fleshed and is non-browning making it superior for canning and freezing. Very good for fresh fruit.

Dixie Red — Ripens 6 weeks earlier than Elberta. Fruit is highly colored, yellow fleshed variety of medium size. Expected to be very popular as an early ripening variety.

Fairhaven — Ripens 2 weeks before Elberta. Fruit is medium to large, yellow flesh with red blush. Flesh is good flavored, firm and does not brown when exposed to air. Fully free stone when ripe.

Jerseyland — Ripens 3½ weeks before Elberta. Earliest yellow fleshed freestone variety that stands up well under commercial handling. Fruit is large and firm and excellent for freezing.

Red Globe — Ripens 3½ weeks before Elberta. Large freestone of good shipping and keeping quality.

Red Haven — Ripens 4 weeks before Elberta. Well colored medium size fruit. Flesh is non-browning and considered excellent for canning and freezing. Classed as freestone but tend to cling in Oregon.

Southland — Ripens 2 weeks before Elberta. Medium size, freestone variety with firm, juicy, medium textured flesh that ships well.

Spotlight — Ripens at same time as Red Haven. Medium size, firm fruit which is semi-freestone.

Sun Haven — Ripens 4½ weeks before Elberta. Medium large semi-cling variety that handles unusually well for an early maturing variety.

Sun High — Ripens 2 weeks before Elberta. Large firm variety that is of highest quality for fresh, frozen and canned use. Flesh is fine textured.

Veteran — Ripens 1½ weeks before Elberta. Medium size, fairly coarse texture, firm, and of good quality.

NUT TREES

ALMOND

Ne plus Ultra, pollinizer.
Lightly branched and whips.

Nonpareil, thin shell.

4 to 6 feet	22.50	200.00
3 to 4 feet	16.50	150.00

Franquette Seedlings.

The seedling tree produces well, but the nuts are smaller than from grafted trees. Quality is similar.

Manregon Seedlings.

Very hardy. Large nut.

6 to 8 feet	13.00	120.00
4 to 6 feet	11.00	100.00
3 to 4 feet	8.50	80.00
2 to 3 feet	7.50	70.00
18 to 24 inches	6.50	60.00

SMALL FRUITS

All prices subject to change without notice.

The 100 rate will apply only on orders calling for 50 or more of a variety and grade; less than 50 will take the 10 rate; 500 or more the 1000 rate where such a rate is shown and no 500 rate listed. Strawberry plants sold as listed.

BLUEBERRIES

Burlington, late	} 3 year	Per 10	Per 100
Concord, midseason, large.....		\$7.50	\$ 70.00
Grover, late		5.50	50.00
Jersey, late, large.....			
Pemberton, midseason			
Rancocas, midseason, large.....			
Rubel, midseason			
Stanley, midseason			
Atlantic, midseason	} 3 year	8.50	80.00
Dixie, late midseason		6.50	60.00

Cross-pollination is necessary for Blueberries, and any two of these varieties will pollinate successfully. (50 or more of the combined varieties take the 100 rate.)

Varieties listed are all desirable for commercial purposes.

The 3 year plants which are bushy and well developed are recommended for salesyard purposes.

SHADE AND FLOWERING TREES—Continued

IMPERIAL LOCUST

(Plant Patent No. 1605)

A graceful spreading variety with symmetrically arranged branches forming a regular and compact tree. Foliage is dainty and refined, and leaflets are more closely spaced than the average Honeylocust forming a more dense cover. This tree grows straight without staking.

SKYLINE LOCUST

(Plant Patent No. 1619)

An unusual variety with distinctly pyramidal form. Branches are uniformly spaced, resulting in a well filled tree on a sturdy trunk which need not be staked or specially trimmed. Foliage is dark green and leaflets are larger and more closely spaced than the average Honeylocust.

SUNBURST LOCUST

(Plant Patent No. 1313)

A fine distinct type of Honeylocust with broad pyramidal head and excellent branching habit. Branch tips possess bright golden foliage. Hardy, clean, very adaptable. Note illustration in color on page 30.

MAPLE—Dwarf Types.

Palmatum (Seedlings). Green, compact. Desirable for ranch-type house.
Grows to 20 feet.

6- 8 feet	37.50	350.00
5- 6 feet	25.00	225.00
4- 5 feet	21.00	185.00
3- 4 feet	16.50	150.00
2- 3 feet	13.50	125.00

Redleaf. Acer palmatum atropurpureum.

Upright growing, grows to 10 feet. Often called ribbonleaf. The variety we are growing holds its rich purple-crimson color very well through the summer.

3- 4 feet	37.50	350.00
30-36 inches	32.50	300.00
24-30 inches	27.50	250.00
18-24 inches	22.50	200.00
12-18 inches	16.50	150.00

Laceleaf. Acer P. Dissectum.

Weeping growth. Grows to 5 feet. Often called cutleaf.

Finely cut reddish foliage.

Available B&B, Gallon Cans and Root-Wrapped five to a bundle. For long shipments we recommend Root-Wrapped plants.

30-36 inches	50.00	450.00
24-30 inches	42.50	400.00
18-24 inches	37.50	350.00
12-18 inches	32.50	300.00

(Both height and spread considered in grading.)

Vine Maple. Acer circinatum.

Grows to 15 feet. Upright, native of Northwest. Green foliage in summer turning to beautiful yellow and reddish hues in fall.

At same price schedule as Palmatum.

SHADE AND FLOWERING TREES—Continued

MAPLE—Continued

Crimson King, *Acer platanoides schwedleri* Nigra. (Plant Pat. No. 735.)

Somewhat slower in growth than Schwedler Maple, this new type holds its rich purplish-red color the entire season.

EVERGREENS

The 10 rate is allowed if 5 or more conifers of a variety and grade are ordered.
Prices are increased for smaller quantities.

All prices subject to change without notice.

Our Evergreens are produced under most favorable conditions assuring a strong, fibrous root system, good shape and color. An adequate ball is used, but we are careful to keep the weight down to avoid excessive transportation charges.

Unless otherwise specified, Evergreen prices cover B&B stock.

SUNBURST LOCUST

(U. S. Plant Patent No. 1313)

Beautiful golden foliage on 8 to 10 inches of the branch tips makes a truly distinctive contrast with the rich green of the balance of the tree on this new honeylocust. Producing only male flowers, Sunburst is absolutely seedless and causes no ground litter. The trees are hardy, adaptable, and transplant easily. (Prices on page 15.)

Sunburst Locust

FAASSEN RED LEAF MAPLE TREE

Faassen Red Leaf Maple tree is slower growing than the Schwedler Maple. It is deciduous, hardy, and holds its color throughout the entire growing season. This Maple tree has a maximum spread at full growth of about fifty feet and will thrive in any locality where Maples will grow. (Prices on page 17.)

**"Faassen Red Leaf Maple" — 4-year-old tree.
Formerly called Faassen Black Maple.**

BROAD-LEAVED EVERGREEN TREES and SHRUBS

The 10 rate is allowed if 5 or more broad-leaved evergreens of a variety and grade are ordered. Prices are increased for smaller quantities.

AZALEA

Azaleas will be available in a good selection of varieties and sizes and will be excellent quality. For convenience we are listing available varieties by Hybrid Groups. Where available, we list the Royal Horticultural Society Color Chart (HCC) or Robert Ridgeway Color Standard and Color Nomenclature (RCS) designation of color for purposes of accuracy. The practice of growing Azaleas in containers is becoming increasingly popular, and for those interested in the 4-6, 6-8 and 8-10 inch range of sizes the container-grown Azalea represents a very good value. Varieties available in gallon cans are indicated by an asterisk (*).

GABLE

Boudoir — Single, 1½", violet red with darker blotch (HCC 027/1). Early. Dense and broad.

Claret — Single, 1½", dark red. Midseason. Medium height.

Corsage — Single, 2½", lavender, fragrant. Late April. Tall.

Edna — Single, hose-in-hose, pink. Midseason. Tall.

Herbert — Single, hose-in-hose, frilled, 1¾", reddish violet with darker blotch (HCC 31.) Early midseason. Tall, spreading.

La Roches — Single, magenta red. Very early. Low spreading.

***Louise Gable** — Semi-double, 2¼", violet red with darker blotch. (HCC 0625.) Late. Low spreading.

Maryann — Double, dainty pink. Low growing.

Mary Dalton — Single, hose-in-hose, 1½", orange red (HCC 020/1). Early. Tall.

Mildred Mae — Single, reddish violet (HCC 31/3). Early. Low.

Miriam — Single, 1¾", violet red with darker blotch (HCC 25/1). Early midseason. Medium height.

Old Faithful — Single, 2¼", reddish violet with darker blotch (HCC 29/2). Early midseason. Medium height, spreading.

***Purple Splendor** — Single, hose-in-hose, purple red. Midseason. Medium height, spreading.

***Rosebud** — Double, hose-in-hose, 1¾", violet red (HCC 25/2). Midseason. Small bushy.

Royalty — Single, 1½", reddish violet with red blotch (HCC 31/2). Late. Medium height, spreading.

Springtime — Single, 2", violet red with darker blotch (HCC 25/1). Early midseason. Erect.

Susan — Single, salmon pink. Late, Low bushy.

GLENN DALE

Aphrodite — Single, 2", pale rose pink. Early midseason. Broad spreading.

Buccaneer — Single, 2", brilliant orange red. Midseason. Tall spreading.

Carmel — Single, 2", pinkish rose (HCC 0023). Midseason. Tall spreading.

***Carinal** — Single, 4", reddish orange (RCS Salmon). Early midseason. Upright

Dayspring — Single, 2", white with red margins. Early. Tall spreading.

***Elizabeth** — Single, 3", orange red (RCS Begonia Rose) with heavy blotch. Late midseason. Spreading.

Fashion — Single, hose-in-hose, 2", orange red (RCS Begonia Rose) with red blotch. Early midseason. Tall upright.

***Gaiety** — Single, 3", red (RCS Rose Pink). Late midseason. Medium height. Spreading.

Glamour — Single, 2½", red (RCS Rose Red). Early midseason. Upright. Medium height.

Greeting — Single, frilled, 2", orange red (RCS Coral Rose). Early midseason. Upright medium height.

Jubilant — Single, 2", rich purplish red. Early midseason. Erect bushy.

Melanie — Single, hose-in-hose, 1½", rose pink. Early midseason. Upright bushy.

Remembrance — Single, violet rose with blotch of red dots. Early midseason. Spreading.

***Treasure** — Single, 4", white. Early midseason. Medium height. Spreading.

RHODODENDRONS

Letters and numbers preceding variety names indicate relative hardiness.

H-1 — Varieties hardy to -25° F. These varieties should be hardy in southern New York and southern New England.

H-2 — Hardy to -15° F. H-3 — Hardy to -5° F. These varieties should be fairly hardy in the southern part of Long Island, Cincinnati, Washington, around Philadelphia and St. Louis.

H-4 — Hardy to +5° F. H-5 — Hardy to +15° F. These varieties should be hardy during most winters in the Portland and Seattle areas. We consider all the Rhododendrons listed hardy in California with the exception of the northern inland portion of the State.

All ratings are subject to revision as more complete information is available.

From 5" pots	11.00	100.00
From 4" pots	8.50	80.00

PORTLAND ROSES

The roses we offer are all grown near Portland in good, sandy, loam soil, without irrigation, thus securing a particularly fine root system and firm, well-ripened wood. The stock is usually ready for shipment by December 1. A favorable growing season seems to indicate excellent quality for this year.

TAKEN FROM AN ADDRESS TO RADCLIFFE COLLEGE
CAMBRIDGE, MASSACHUSETTS
JUNE 18, 1941

By FELIX FRANKFURTER
JUSTICE OF THE SUPREME COURT

"Ours is a civilization of hubbub where raucous voices drown out the still small voice of reason. We want to get rich quick morally and intellectually. We resort to short cuts and easy ways. But there is no short cut to reason, no ersatz for morality. The mechanical triumphs of the machine age cannot be transferred to the workings of democracy. All evasions of hard thinking are self defeating."

From the Speakers Notebook, by W. G. Hoffman, McGraw Hill Book Co.
